## Program Focus and Highlights

ISA2012 will be an educational meeting that will appeal to all those interested in atherosclerosis, ranging from basic science to clinical aspects.

The key aim of ISA2012 is to provide a comprehensive, state-of-the-art overview of the current understanding of the origins, progression and prevention of atherosclerosis. The program will focus on recent clinical and scientific advances in key and emerging areas of atherosclerosis including but not limited to (in alphabetical order):

- Atherosclerosis and the immune system
- Diabetes, insulin resistance and atherosclerosis
- Epidemiology and the emergence of atherosclerosis in developing countries
- Genetic and genomic approaches for identifying new therapeutic targets and risk factors
- Gene therapy and atherosclerosis
- HDL function and therapeutic strategies for raising HDL levels
- Imaging in atherosclerosis
- Mechanistic aspects of atherosclerosis
- New insights into lipoprotein metabolism
- New risk factors and biomarkers in atherosclerosis: lipidomic and proteomic approaches
- New therapeutic approaches for treating atherosclerosis
- Pharmacogenomics of atherosclerotic disease
- Recent advances in nutrition, nutrigenomics and nutraceuticals
- Vascular biology of atherosclerosis
- Visceral obesity, metabolic syndrome and atherosclerosis

Each session will integrate these themes, incorporating scientific, clinical and therapeutic advances.

## Host City & Venue

Sydney, the capital of New South Wales, is built around one of the largest, most beautiful harbours in the world with miles of golden beaches stretching north and south of the city on the shore of the Pacific Ocean.

Sydney Convention and Exhibition Centre is the largest in Australia and having hosted many internationally renowned meetings will be the perfect location for ISA2012.

## Key Dates

January 2011 – Call for abstracts opens

March 2011 – Registration open

August 2011 – Abstract submission deadline

November 2011 – Author notification of acceptance

December 2011 - Early bird & author registration deadline
