

The Dubbo Study is pleased to host:

HEALTHY AGEING

A 1-day symposium – Friday March 30, 2012

Venue:

Crowne Plaza, Coogee Beach Hotel
242 Arden St
Coogee, Sydney NSW

Keynote presenters:

Professor John Danesh from Cambridge, Principal Investigator of the Emerging Risk Factor Collaboration. He will conduct a seminar on META-ANALYSIS, devoted to methodology, interpretation and pitfalls of this approach.

Professor J David Curb from Hawaii, Director of the Honolulu Heart Study. He will present highlights from this study.

Professors John McCallum and Leon Simons from Australia will present latest data from the Dubbo Study.

There is opportunity for oral presentation of free communications (10 mins+questions). Please submit an abstract before January 31, 2012. It should be emailed to: L.Simons@unsw.edu.au

Registration

There is a nominal registration fee of \$75 (inclusive of GST), which will also cover tea/coffee breaks, lunch and the conference dinner in the evening. Registration is free for post-graduate students (not including the conference dinner).
